The most useful resource
ever created for founders.

Using Landkit to build your site means never worrying about designing another page or cross browser compatibility. Our ever-growing library of components and pre-designed layouts will make your life easier.

✓ Lifetime updates   ✓ Tech support

✓ Tons of assets   ✓ Integration ready

We have lots of experience
building Bootstrap themes.

We've built well over a dozen Bootstrap themes and sold tens of thousands of copies.

Bootstrap users since the beginning
We've been developing with Bootstrap since it was publicly released in 2011.

Deep understanding of Bootstrap
We've watched Bootstrap grow up over the years and understand it better than almost anyone.

Our customers are our biggest fans.

We don't like to brag, but we don't mind letting our customers do it for us.
Here are a few nice things folks have said about our themes over the years.

"Landkit is hands down the most useful front end Bootstrap theme I've ever used. I can't wait to use it again for my next project."

Contact us

Can I use Landkit for my clients?

Absolutely. The Bootstrap Themes license allows you to build a website for personal use or for a client.

Is there a money back guarantee?

Yup! Bootstrap Themes come with a satisfaction guarantee. Submit a return and get your money back.

Do I get free updates?

Yes. We update all of our themes with each Bootstrap update, plus are constantly adding new components, pages, and features to our themes.

Does it work with Rails? React? Laravel?

Yes. Landkit has basic CSS/JS files you can include. If you want to enable deeper customization, you can integrate it into your assets pipeline or build processes.
